

ANACONDA'S KICKERS

The Boys Have the Football Fever in a Serious Form.

WILL PLAY THE TRILBIES

Next Sunday There Will Be a Game at the Park—The Eleven is Practicing for the Grid-Iron Contest.

The football fever in its most virulent form is raging in Anaconda. Preliminary symptoms have been felt all summer and for a time, shortly after the game between the Oxford and the Silver Bows, when the Anaconda team abandoned practice, it was thought that the attack of the fever was averted; but the mild form which was experienced in the early summer would make the city immune from a further affliction. The cooler weather had its effect on the bacilli which found lodgment in the minds of a few of those engaged in the former game and some who saw it, or possibly the germs were carried over on the winds from Butte. However, it is a matter of next Sunday. They call themselves very appropriately "The Trilbies," and make up a very strong team, as may well be supposed from the fact that both of these teams have in turn practiced against the Butte champions.

The local team has succeeded the organization which lined up during the summer and the name is retained, the Oxford. The boys are provided with new protectors, shoulder braces and padded breeches, so that the visitors will have some trouble in "eating 'em up," at least. Uniforms have been secured at cost, although not without difficulty. All the members of the team were supplied except Center Rush Rowe and no width of canvas could be found in the city that was wide enough. A telegram to Spaulding brought a reply that he would have the clothes made. He had none in stock of the right size.

Collins has a pair of pants that make him look as though Frank Conley had a reward out for him. Harrington will hold up the right side of Rowe and Collins the left; they are the guards. Reals is the latest acquisition, a heavy-weight, and a good right tackle. His name rhymes with Neal, who balances the other end of his row.

Fitzpatrick has dropped into a thorough, faithful performer and with Curley Morgan is playing on the end. Richards is a sprinter, and will be hard to catch if he gets started towards the goal with the ball. "Griff" has given up his old love, baseball, and is one of the most enthusiastic members of the team.

McHugh, the quarterback, is a cyclone at rushing. Last, but not least, is Capt. Joe Williams, who is training the team as much as possible while laboring with an attack of rheumatism. He is one of the main stays of the team.

Manager O'Brien was called East yesterday, and he left the business management of the game in the hands of Rod Williams. "Big Jim" Hooper of Butte will be invited to officiate as one of the field officers. All who are loyal to Anaconda will wear the colors red and black. The visitors have a paraphrase of the Butte symbols, red and white, for their colors.

For the game the B. A. & P. has tendered the use of the park free, and no admission will be charged. A collection will be taken to defray the expenses of entertaining the visiting eleven.

A large crowd is expected from Butte, and trains will run so as to accommodate all who desire to spend the day in Anaconda. The morning train will bring them down, leaving Butte at 10:45, and the return trip will be made on a special train leaving Anaconda some time after 7 o'clock in the evening.

The teams will line up as follows:
Oxford. Positions. Trilbies.
Rowe.....Center.....Pascoe
Harrington.....Right guard.....Holbrook
Collins.....Left guard.....Lynch
Reals.....Right field.....Thornton
Neal.....Left field.....Kelly
Fitzpatrick.....Right end.....Capt. Purcell
Morgan.....Left end.....E. Brown
Richards.....Right H. B.....Leary
Griffith.....Left H. B.....O. Brown
McHugh.....Quarterback.....Courtney
Capt. Williams.....Full back.....Ryan

IMPORTED CHINA

Decorated at Home—It is Useful and Ornamental.

Lovers of the artistic and beautiful in ceramics will be delighted by a visit to the store of J. Merrill & Co., on Commercial avenue. Mr. Merrill has secured a complete stock of the famous Crown Pairpoint French china, which is the handsomest hand-painted ware known to the trade. The blanks are obtained direct from the Limoges, France, the birth place of French china. The goods are wholly modern in model and design and are decorated by a corps of American artists in the studios at New Bedford. There is fragrance in the flowers, life and "feeling" in every subject. This work is not expensive. It can be bought cheaper than you or your wife could do it at home and just as cheap as the stoneware which is infinitely less desirable.

Enlarging the C. C. C. Store. Workmen were busily engaged yesterday in tearing the roof from the one-story portion of the Copper City Commercial company's store. The wall will be raised a story higher, making an addition of 50x70 feet to the second floor of the building. The needs of the business are long called for more space, and it is being acquired as rapidly as possible. A new warehouse is also contemplated for erection this fall.

Fine Workmanship. A. L. Osborn and A. L. Hummer of the Tuttle Manufacturing and Supply company, have manufactured out of copper a complete set of mining tools in miniature, a cage and two anvils. The workmanship is delicate and shows no little mechanical genius. The finish is so fine that the tools are as ornamental as jewelry. They are displayed in Merrill's window.

Semke La Matilde, best cigar manufactured, Havana, Cuba. Branch factory, Ocala, Florida.

"Fast Mail" Coming.

A production of unusual magnitude will be given at Evans opera house, next Wednesday evening. Lincoln J. Carter's superb scenic melodrama, "The Fast Mail." As its name indicates, it deals largely with the railroad in its incidents, but it presents an abundance of effects that are daring in their magnitude and admirable in their execution. The steamboat is said to be a wonder of clever conception, and masterly mechanical work, and the railroad scene, with its trains going at a terrific rate of speed, makes the stage seem like a piece of reality. The Niagara Falls scene is wonderfully beautiful, and it may safely be said is more elaborate than anything of the kind ever before attempted in this city. There are a multitude of minor effects that contribute to make the performance a revelation of realism. The whistles, bells and splashing are heard as the boat leaves the wharf. The sounds that tell us of an approaching train herald the approach of the freight and the fast mail train—the latter rushing by with people gazing from the window at the heroine who has just saved her lover's life by fastening a letter to the mail pouch. The roaring of Niagara Falls is heard, and the mist that rises from it is shown vividly. The play is under the personal direction of L. J. Carter, the author.

Get your clothes cleaned at Chicago Dry Works. Prices reasonable. All work guaranteed. East Commercial avenue, opposite Vienna bakery.

PAIN'S CELERY COMPOUND.

An Absolute Cure For the Worst Cases of Rheumatism.

The Plain Language of Mr. Oscar Pike—The Greatest of All Remedies Accomplished His Cure After Many Months of Weakness and Suffering—No Tedious Waiting for Improvement.

Paine's celery compound is the one known specific for the cure of rheumatism.

And it does not need a tedious trial to prove it.

The effect of this best of remedies is straightway felt.

Not a week goes by before the pains of rheumatism diminish.

Thousands of men and women have told of the days and nights of pain and feebleness exchanged in a few weeks for activity and strength.

Paine's celery compound has won the reputation of being the remedy "that make people well." Its good works extend from Oregon to Maine. In every state in the Union there has been piled up in the newspapers and medical journals a tremendous amount of indisputable evidence of the curative power of Paine's celery compound over all forms of nervous debility and diseases of the blood.

It cures after nature's plan, by affording nutrition for every part of the body, overhauling the worst out tissues, and supplying new brain and nerve material, sending pure blood through the veins, invigorating the whole system, and removing the cause of disease.

Mr. Oscar Pike, a well known resident of Princeton, Maine, recently sent the following unsolicited letter to the proprietors of this wonderful remedy:

"Two years ago I was taken sick with what the doctors called grip. I was improving when I took on a violent cold and chill. Then rheumatism set in, first in the joints of my shoulders, then down my hands and arms, then all over. Feet, hands and legs swelled. I could not put my hand to my head; could not throw the clothes off from me; could not dress or undress myself, nor get out of my chair without help. For a year and a half I tried all kinds of medicines and sarsaparillas, with little or no relief. I was 53 years old. Some one told me to try Paine's celery compound. After I had taken three bottles I found a marked improvement. I have now taken twelve bottles, and the result is I eat and sleep well, do my own work and go about as usual, getting in and out of my carriage without help. I have been tempted to put an article in the local paper for the benefit of those that are afflicted as I have been."

Mr. Pike is well known in this locality. He is the founder and president of the North Washington Agricultural Society and Trotting Association. When he goes for his mail, he says, people ask him what he has been doing that he is improving so of late, and he answers as do thousands of others throughout the country—

"Paine's celery compound has made me well!"

He Tried to Kill.

Kansas City, Sept. 25.—A special to the Star from Norton, Kansas, says: Morgan Heaton made a desperate attempt this morning to kill J. M. Craig, a Plattsmouth, Neb., banker, and failing he turned the revolver on Cashier W. T. Shoemaker of the Norton State bank. Craig was one of the defendants in a case recently brought by Heaton's wife which was decided against Heaton. Feeling between the two men has been bitter. At 9 o'clock to-day when they met on the street Heaton fired three shots at Craig, none of which took effect. Heaton then ran to the Norton State bank and fired at Cashier Shoemaker. His aim again proved untrue. He was arrested before he could fire another time.

Three Killed.

Hermosillo, Mexico, Sept. 25.—Information reaches here of a fight between a scouting party of ranchmen and 20 Yaqui Indians in the mountains south-east of here. The Indians had burned a number of ranch buildings and driven off the stock. A hand-to-hand conflict resulted in the killing of five Indians and wounding of several others. Three ranchmen were killed and five wounded.

Fast Railroad Travel.

Syracuse, Sept. 25.—All records for speed in long distance travel by railroad were broken this morning by the New York World special train which carried this morning's edition from New York to this place. The distance between Albany and Syracuse, 148 miles, was covered in 130 minutes, an average of 68.3 miles per hour.

"I love you," said Mr. Sheep to Mrs. Sheep. Replied Mrs. Sheep, "Bah!"—Boston Transcript.

Owing to the expressions of dissatisfaction over the race at Oregon, a side day another match race for \$250 a side has been arranged between owners of Gray Dick and Sage Brush to take place at Oregon on Sunday, the 29th inst., promptly at 2:30 p. m. Other interesting races will follow.
